

Dear Students or Participant,

Your professor or facilitator has recorded a few Panopto sessions and would like for you to view them. Please click the link below and click the Login link in the upper-right corner of the screen.

<http://lectures.bradley.edu/Panopto/Pages/Folders/List.aspx#>

If you have a Bradley login, please select "ad.bradley.edu" in the first line and log in with your BUNetID and password.

If you do not have a Bradley login and received an email from Panopto, please select "Panopto" in the first line and use the username and temporary password that were sent. Once you log in, you will be prompted to choose a new password.

Once you log in you will see folders. Click the appropriate folder, then click the title of the session you desire.

**\*IMPORTANT\*** In order to play the presentations, you will need Microsoft Silverlight. Panopto will tell you if you do not have Silverlight installed on your computer and provide a link for you to download the software. You most likely will not even have to restart your computer after Silverlight has been installed.

**\*IMPORTANT\*** You must have "cookies enable" in your web browser in order for Panopto to work properly. If you do not accept "cookies" Panopto will log you in to the system, but you will not be able to view any videos.

If you have questions about the login process or how to use Panopto, please contact staff at the ITAC office by emailing Barb ([brk@bradley.edu](mailto:brk@bradley.edu)) or Tony ([tony@bradley.edu](mailto:tony@bradley.edu)) or by calling (309) 677-2344.
