Since 1947 the Graduate School has focused upon master's level education, emphasizing applied research and creativity within the context of coherent and innovative programs. In many disciplines, interdisciplinary and intercollegiate academic arrangements allow for scholarly investigations which are not generally available in the traditional master's degree. Detailed program descriptions may be found in the Graduate Catalog or on the Internet at www.bradley.edu/grad.

The University and its location offer broad learning opportunities. The Bradley Cullom-Davis Library, Information Resources and Technology, and extensive laboratories and studios provide students with opportunities for conducting research and creative productions. The graduate faculty of 172 full-time professors is complemented by lecturers and research personnel from off-campus. Bradley is located in Peoria, Illinois, a population center of 350,000. This area is characterized by an economically sound industrial complex contained within a highly productive agricultural region. The area provides unique resources for students of industry, art, business, science, healthcare, and education.

Students with undergraduate degrees often find that advanced education at the master's level can be the entry point for new and better job opportunities. It can lead to further study and rewarding careers as university faculty, researchers, or scientists. In some fields, the master's degree is necessary in order to obtain the professional credentials or recognition needed to be successful. The master's degree can also help working professionals upgrade their skills, keep abreast of new knowledge in the field, or enhance their own personal development.

As early as their freshman year, many Bradley students plan to begin a master's program at Bradley immediately upon completing their undergraduate degree. Bradley seniors of superior academic standing may register for graduate courses for graduate credit if approved by the graduate coordinator, undergraduate dean, and the Graduate School prior to registering for the course. If approved, the student registers as a senior and files the appropriate form with the Registrar's Office, graduate coordinator, and Graduate School prior to registering for any graduate coursework. Eligible seniors who request graduate credit must submit the Application for Graduate Credit for a Senior form to the Graduate School.

More detailed information on Graduate School programs and policies, as well as the Graduate Catalog and admission and academic forms, are available from the Graduate School, 118 Bradley Hall, 677-2375, bugrad@bradley.edu, or on the Internet at www.bradley.edu/grad.

**LAS M.B.A. Program**

A special program has been designed to enable students majoring in any undergraduate program in the College of Liberal Arts and Sciences to also earn an M.B.A. in a minimum of five years, with carefully coordinated advising. Interested students should see the director of graduate programs in the Foster College of Business Administration their freshman year.
B.A./B.S. and M.S.A. Integrated Program

The Department of Accounting offers an integrated Bachelor’s (B.A. or B.S.) and Master of Science in Accounting (M.S.A.) degree. Combining pursuit of the B.S. or B.A. degree with the M.S.A. degree offers students three major advantages: greater availability of financial aid, earlier guarantee of admission to the graduate program, and more flexibility in the sequencing of classes. Admission to the program is available when students are initially admitted to Bradley University or during their junior year. The Graduate Catalog provides a complete description of the program’s requirements.

Continuing Education

Continuing Education is Bradley University’s entrepreneurial academic unit. In extending the resources of the university to promote lifelong learning, Continuing Education engages in two important tasks. First, the unit links Bradley’s faculty with organizations that have educational needs. Second, Continuing Education provides the infrastructure that supports educational outreach. Staff secure resources such as presenters, meeting space, food services, housing, entertainment, audio visual equipment, and parking, in addition to providing related meeting services such as publicity, registration, and billing. A unique contribution of Continuing Education is its role in facilitating programs across the age span. As a result, Continuing Education is involved in the following special projects:

Lifelong Learning
- The Institute for Learning in Retirement, a program for learners 55 and older who want to share knowledge and skills with others
- Bradley University World of Wonder, an educational program for gifted and talented youth
- Piano Preparatory School, private piano instruction for aspiring musicians
- Computer Classes for Seniors, hands-on instruction for those who like a comfortable pace, reasonable price, and patient instruction

Professional Development
- Alumni education programs for Bradley alumni and friends
- Professional development workshops and seminars designed to address specific organizational needs
- Conference planning for organizations wishing to host regional and national meetings
- Cultural enrichment programs that extend the university into the community
- Computer lab rental in a 15-station modern computer lab in Bradley University’s Caterpillar Global Communication Center
- Continuing Education Units (CEUs), professional certification credits acquired for clients participating in qualified professional development programs

Additional Programs Supported by Continuing Education
- Bradley University’s Summer and Interim sessions
- Credit classes offered or developed to meet specific organizational needs
- Admission to Bradley University for undergraduate students interested in taking classes but not working toward a degree
- Distance education courses (online, videotape, compressed video) to students at off-campus sites
