

# THE GRADUATE SCHOOL

Since 1947 the Graduate School has focused upon master's level education, emphasizing applied research and creativity within the context of coherent and innovative programs. In many disciplines, interdisciplinary and intercollegiate academic arrangements allow for scholarly investigations which are not generally available in the traditional master's degree. In 2005, Bradley University introduced graduate certificate programs. These programs are narrower in scope than the degree programs, but are designed to fulfill many of the same needs. They are particularly designed for individuals wishing to enhance their work skills or change work emphasis. Detailed program descriptions may be found in the Graduate Catalog or on the Internet at [www.bradley.edu/grad](http://www.bradley.edu/grad).

The University and its location offer broad learning opportunities. The Bradley Cullom-Davis Library, Information Resources and Technology, and extensive laboratories and studios provide students with opportunities for conducting research and creative productions. The graduate faculty of 172 full-time professors is complemented by lecturers and research personnel from off-campus. Bradley is located in Peoria, Illinois, a population center of 350,000. This area is characterized by an economically sound industrial complex contained within a highly productive agricultural region. The area provides unique resources for students of industry, art, business, science, healthcare, and education.

Students with undergraduate degrees often find that advanced education at the master's or certificate level can be the entry point for new and better job opportunities. It can lead to further study and rewarding careers as university faculty, researchers, or scientists. In some fields, the master's degree is necessary in order to obtain the professional credentials or recognition needed to be successful. The master's degree and/or certificates can also help working professionals upgrade their skills, keep abreast of new knowledge in the field, or enhance their own personal development.

Bradley seniors who are within 6 semester hours of graduation, or who are registering for the semester during which they will complete their bachelor's degree requirements, may register for graduate courses for graduate credit provided they also have a cumulative grade point average of 3.0 or greater. They must also have the approval of: 1) their undergraduate advisor, 2) the instructor of the course, who determines if the course is appropriate for graduate credit, and 3) the graduate program director/coordinator if the course is part of a graduate program, or the department chairperson if the department does not house a graduate program. A senior may not take more than 9 semester hours of courses for

graduate credit while registering as a senior. These hours will not be counted toward the baccalaureate degree.

The student must secure the approval signatures on the form, *Application for Graduate Credit for a Senior*, and file it with the Registrar. Forms may be obtained from the Registrar's Office.

## **B.A./B.S. and M.S.A. Integrated Program**

The Department of Accounting offers an integrated Bachelor's (B.A. or B.S.) and Master of Science in Accounting (M.S.A.) degree. Combining pursuit of the B.S. or B.A. degree with the M.S.A. degree offers students three major advantages: greater availability of financial aid, earlier guarantee of admission to the graduate program, and more flexibility in the sequencing of classes.

Admission to the program is available when students are initially admitted to Bradley University or during their junior year. The Graduate Catalog provides a complete description of the program's requirements.
